Antimicrobials Division (7510C)  
1200 Pennsylvania Avenue NW  
Washington, D.C. 20460

EPA Reg. Number:  
9339-34

Date of Issuance

MAR 31 2014

Term of Issuance:

**UnConditional**

Name of Pesticide

Product:

Ultra Gard

NOTICE OF PESTICIDE:

Registration  
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Flexabar Corporation  
1969 Rutgers University Blvd.  
Lakewood, NJ  
08071

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis the of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA Section 3(c)(7)(A) provided that you:

1. Submit and/or cite all the data required for registration of your product under FIFRA Section 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit required by registration review under FIFRA Section 3(g).
2. To satisfy OPPTS 830.6317 (storage Stability) and OPPTS 830.6230 (corrosion Characteristics) requirements, results for a minimum of one year storage stability and corrosion characteristics study must be submitted to the Agency for review.

Signature of Approving Official:

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec.6 (e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. The next label printing of this product must use this labeling unless subsequent changes have been approved. You must submit one (1) copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.13 (c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2 (gg) and it's implementing regulation at 40 CFR 152.3.

If you have questions concerning this matter, please contact Marshall Swindell at (703) 308-6341 or by email at [swindell.marshall@epa.gov](mailto:swindell.marshall@epa.gov)

Sincerely,

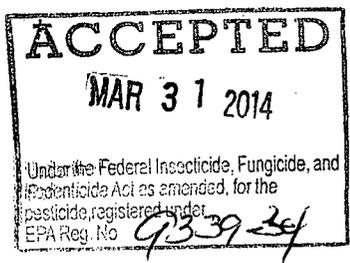

Marshall Swindell

## DIRECTIONS FOR USE

Ultra Gard is a cuprous oxide pigmented coating, formulated especially to prevent the attachment of both plant and animal fouling on vessels immersed in both seawater and "brackish" water.

### 1A) Surface preparation: New / Bare Fiberglass Hulls:

Wipe down surface with Aquagard 180 Wash & Dewaxer. Change rags frequently to assure complete removal of wax and mold release agent & contaminants. Sand surface thoroughly with 80 or 100 grit sand paper. Wipe down surface again with Aquagard 180 Wash & Dewaxer to remove sanding residue and immediately apply one (1) coat of Aquagard Primer with a roller or brush. Allow Primer to dry for a minimum of two (2) hours.

### 1B) Surface preparation: For previously painted surface:

To prepare the surface for coating, remove all loose coating and fouling residue by either washing with high pressure water, scraping or by sanding. Apply a small patch of Flexdel Ultra Gard Anti-Fouling Paint to test compatibility with the old paint. If Flexdel Ultra Gard Anti-Fouling Paint cracks or lifts, all the old paint will have to be removed. Then follow the "Bare Fiberglass Hulls" system specified above. If nothing appears to happen when this product is applied, let the test patch dry for several hours and then scrape this product to see if it is adhering to the old paint satisfactorily. If the adhesion looks good, sand the entire surface thoroughly with 80 grit sandpaper.

Previously painted surfaces in poor condition (such as chipping, peeling or flaking) should be stripped to bare fiberglass. Then proceed with the "Bare Fiberglass Hulls" preparation.

**2) Application:** A clean dry surface (free of scale, corrosion, dirt, grease, oil, marine fouling, or other foreign matter) will provide the optimum performance of this coating, when used for either complete coating or touch-up. Wipe down surface with Aquagard 180 Wash & Dewaxer. Inadequate surface preparation will result in unsatisfactory performance. Mix the coating thoroughly for a minimum of five (5) minutes to insure complete pigment reincorporation. Apply by either brush or roller. Flexdel Ultra Gard Anti-Fouling Paint should be applied at or above 50°F. Apply two (2) coats of Flexdel Ultra Gard Anti-Fouling Paint. Allow four (4) hours drying time between coats. Let final coat dry eight - twelve (8-12) hours before launching the boat. The theoretical coverage of this product is approximately 400 square feet per gallon. Clean up with paint thinner or white spirits when finished.

## STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Keep container closed when not in use. In case of spillage, absorb with inert material and dispose of in accordance with applicable regulations.

**Pesticide Disposal.** Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your state pesticide or environmental control agency, or the hazardous waste representative at the nearest EPA regional office for guidance.

**Container Disposal.** Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain. **Commercial Users:** Triple rinse container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer the container for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved state and local procedures.

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**WARNING:** Causes substantial but temporary eye injury. Do not get in eyes or on clothing. Wear goggles, face shield, or safety glasses. Harmful or fatal if swallowed or absorbed through skin. Avoid contact with skin or clothing. Wear protective clothing such as gloves, long-sleeved shirt, long pants and hat. Harmful if inhaled. Do not breathe vapor, spray mist, or dust. While sanding or sandblasting, wear a mask or respirator approved by the National Institute for Occupational Safety and Health (NIOSH). Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

**FIRST AID:**

**If swallowed:** 1.) Call a poison control center or doctor immediately for treatment advice. 2.) Do not give any liquid to the person. 3.) Do not induce vomiting unless told to do so by a Poison Control Center or doctor. 4.) Do not give anything by mouth to an unconscious person.

**If on skin:** 1.) Take off contaminated clothing. 2.) If on skin, wash with plenty of water for 15-20 minutes. 3.) Call poison control center or doctor for treatment advice.

**If inhaled:** 1.) Move person to fresh air. 2.) If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. 3.) Call poison control center or doctor for treatment advice.

**If in eyes:** 1.) Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. 2.) Call a poison control center or doctor for treatment advice

**Other:** Have the product container or label with you when calling a poison control center or doctor or going for treatment.

**Note to Physician:** Contains petroleum distillates. Vomiting may cause aspiration pneumonia.

**PRODUCT EMERGENCIES: 1-800-424-9300**

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to aquatic organisms including fish and shellfish. Do not apply directly to water by cleaning of equipment or disposal of wastes. Do not allow chips and dust generated during paint removal to enter water. Dispose of paint debris in an approved landfill. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your state water board or regional office of the EPA.

**PHYSICAL OR CHEMICAL HAZARDS: COMBUSTIBLE.** Do not use or store near heat or open flame.

**DISCLAIMER:** The performance of any marine paint or coating depends on many factors outside the control of Flexdel Corp. including environmental conditions. Therefore, Flexdel Corp. cannot guarantee this product's suitability for your particular purpose of application. Implied warranties of fitness for particular purpose and of merchantability are excluded. Flexdel Corp. shall not under any circumstances, be liable for incidental or consequential damages. By purchase or use of this product, buyer agrees that sole and exclusive remedy, if any, is limited to the refund of the purchase price or replacement of the product at Flexdel Corp., option.
